

SPECIAL COATING

ANTI-SLIP

1 OR 2 SIDES ANTI-SLIP

COMPOSITION

- ▶ Paper, plastic film, corrugated board, 1 or 2 sides coated

QUALITY OF PRODUCT

- ▶ Coating process depending material type
- ▶ Coefficient of friction according to application

APPLICATION USE

- ▶ Stabilizes product loads
- ▶ Optimizes transport loads
- ▶ Stowing of loads during transportation
- ▶ Coating on any packaging material
- ▶ Soft to touch

PALLETIZATION

- ▶ Available on rolls and sheets

SPECIFICATION SHEET

Material type	Paper, carton board or film		Standards
Weight	Upon request		ISO 536
Slide angle	Anti-slip on anti-slip	Anti-slip on paper	NF Q 03-083
	up to 75°	up to 65°	
Static coefficient of friction	up to 3,7	up to 2	ISO 8295
Dynamic coefficient of friction	up to 1	up to 0,6	ISO 8295
